## The difference is Ultrasound

Ultrao™ is the first power toothbrush to combine the forces of ultrasound waveguide technology with precisely tuned sonic bristle action. Ultrao's bristles create bubbles that are powerfully activated by nearly 4 million cycles per brushing of ultrasound energy channeled by a proprietary ultrasound waveguide.

Ultrao — a safe, yet powerful cleaning combination of ultrasound-activated pulsating bubbles and sonic bristle action for a gentle, deep, long-lasting feeling of clean.

1. Precisely tuned sonic bristle action creates bubbles and cleans on contact

2. Ultrasound is channeled into bristles through a proprietary ultrasound waveguide

3. Bubbles are activated by the ultrasound energy, creating a powerful cleaning action

## Here's what you can expect

### A deep clean

Ultrareo's combination of ultrasound waveguide technology and sonic bristle action can remove hard-to-reach plaque for an incredibly deep feeling of clean.

### A fast clean

Ultrareo has been clinically proven to remove up to 95% of plaque from hard-to-reach areas in the first minute of brushing.

### Naturally whiter teeth

Ultrareo has been clinically proven to remove surface stains for naturally whiter teeth in just 14 days.

### Improved gum health

Ultrareo has been clinically proven to reduce gingivitis in just 30 days.

### A safe and gentle clean

Ultrareo is shown to be safe and gentle for everyday use on gums, natural tooth surfaces and dental work.

### A brushing experience people love

8 out of 10 people who used Ultrareo in a recent study would switch to Ultrareo from their current power toothbrush. And of those who expressed a preference, 8 out of 10 thought the overall cleaning provided by Ultrareo was better compared to the power toothbrush they normally use.
